(en) Kaveh Razavi

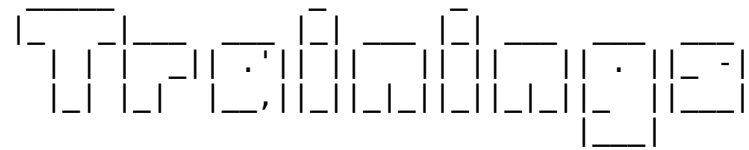

12h30 Lunch

14h00 Trainings

15h00 **Binder: Etude du mécanisme de
communication interprocessus
d'Android et de ses vulnérabilités**
(fr) Jean-Baptiste Cayrou

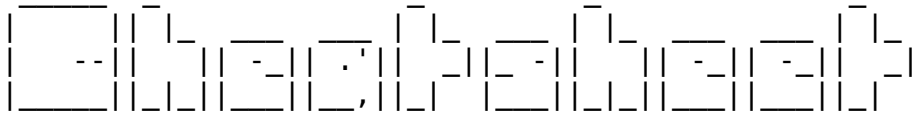

16h00 Coffee Break

16h30 **The topological face of recommendation:
models and application to bias detection**
(fr) Gilles Trédan & Erwan Le Merrer

As part of their work, TLS-SEC students have organized trainings you are invited to participate in.

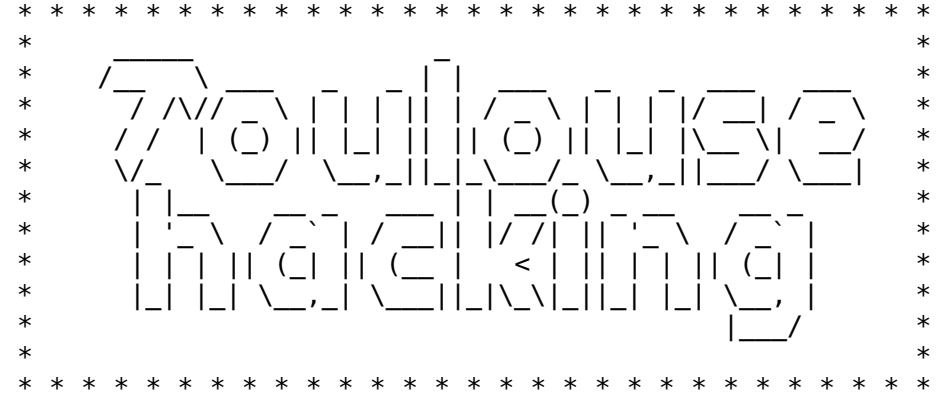

The program will be announced before lunch and the trainings will take place after the social event.

Please keep your badge with you as it will be required to attend the conferences, trainings & the social event.

Note: If you need assistance or if someone is causing you trouble, please contact the staff immediately.

contact@thcon.party - @ToulouseHacking
T.I.S.A. is an IT Security Association

Fine computer craftsmanship since 0x7e1
